

IDAHO SOIL & WATER
CONSERVATION COMMISSION

Project Development Conservation Innovation Grant (CIG) (Minidoka CD)

Program	District Technical Assistance (ISWCC)
Lead Implementer	Idaho Soil and Water Conservation Commission
Other Organizations	Minidoka Conservation District
Project Primary Contact	Carolyn Firth (carolyn.firth@swc.idaho.gov)
Project Stage	Implementation
Duration	2017

Conservation Support ➤ District Technical Assistance (ISWCC)

Assist with development of CIG project proposal. The purpose of the project is to encourage farmers to adopt the practices of planting cover crops, pollinator plots, and food plots in order to provide habitat for wildlife, decrease use of fertilizers and chemicals for weed control, decrease water use, and improve soil health. The grant would provide financial incentives to farmers to pay for seed and to either rent the Minidoka District's no-till drill or another verified direct seed implement. An educational component of the project would be included with a grower-completed survey including documentation of chemicals and fertilizers used and pictures of the cover crops and plots.

Tracker tells stories at a broad-brush level. Individual project performance measures and expenditures should not be relied upon for complete and total accuracy and should be confirmed with a project's lead implementer. Project locations subject to confidentiality provisions under state and federal law specify the location of a local conservation district or USDA service center office.
